

SOMNATH ENGINEERING

Fast Is Fine But Accuracy Is Everything

ABOUT US

Primarily at present we are actively engaged in the manufacturing of mass quantity small mechanical components like lock nut, mild steel stud, bearing race, machined washer, flange, collar, spacer etc. as per drawing and specification given by client. Since 2005.

In the nut-shell the basic infrastructure of our unit can be prescribed as below.

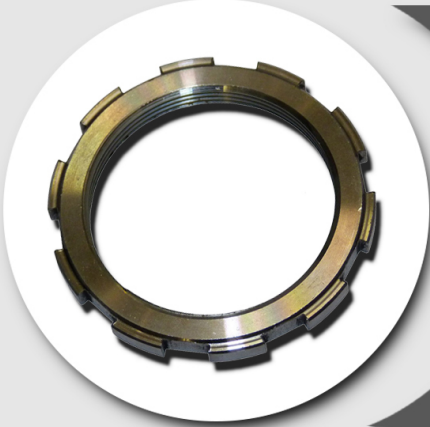

We have permanently constructed structure having 200 Sqmt of floor space and along the same structure we also have extra shed readily available having 200 sqmt of floor space with all due facilities like electricity, finished floor, store space, office etc.

In our present shed we have machine tool facility is described as under.

- (1) 1 Nos CNC MACHINE (mfg.2014)
Made:-ACE DESIGNER
Model: Jobber junior
Bar capacity: 36mm diameter.
- (2) 1 Nos CNC MACHINE
Made: - JYOTI CNC AUTOMATION LTD. (mfg 2015)
Model:-DX 100
Bar capacity: 36 mm diameter.
- (3) 1 Nos of Traub machine (50 mm dia capacity)
- (4) 1 Nos of Traub machine (30 mm dia capacity)
- (5) 1 Nos of Rotary type band saw machine.
- (6) 17 Nos turning lathe machine.
- (7) 2 Nos of milling machine.
- (8) 5 Nos of vertical drilling machine.
- (9) 5 Nos of SPM for drilling.

Following the large quantity and continuous supply needs of our present clients, we have employed 13 full time skill machine operator and good numbers of supporting workers. We also employed 2 nos. of qualified full time supervisor to run the company effectively.

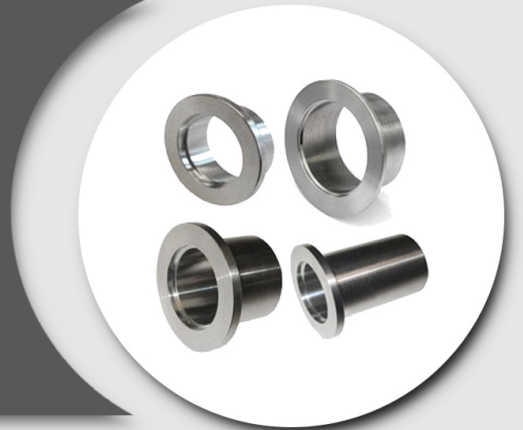

CHECK NUT

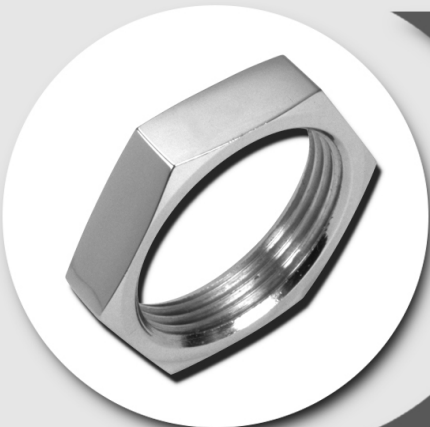

Our enterprise is instrumental in providing our customers with excellent quality array of Check Nut. Our offered nut is manufactured in accordance with set industry standards using supreme grade metal with the aid of innovative techniques. This special kind of nut is suitable for preventing vibration or torque from bolt joint that is loosen. In addition to this, we provide this nut to our clients' at most economical rate.

SLEEVE

We offer Mild Steel Sleeves for Pumps and Motors to our clients, which are widely used in automotive industry. Further, to fulfill the exact demand of our clients, we customize our range of sleeves on different parameters.

PRECISION HEX NUT

We specialize in manufacturing wide range of Precision Hex Nuts that is available in a variety of sizes. These are fabricated using quality raw material and are tested for durability and reliability. These can also be customized as per the specific requirements of our clients.

PRECISION LOCK NUT

We are highly celebrated manufacturer and supplier of all types of Precision Lock Nuts. The offered Lock Nuts are widely used by clients for their smart fitment and promising performance span. We are also providing plating on it as per clients requirement.

MILD STEEL STUD

Our offered Industrial Mild Steel Stud are mostly used by clients for their lasting running life. The offered stud are comprehensively used in most of industrial applications for their unbeatable tolerance ability. Available in economical market rates.

PRECISION TURNED PARTS

We are manufacturer and supplier of all types of Precision cnc Turned Parts. These precision turned parts are highly trusted and recommended by experts for their precision fitment and reliable serving life

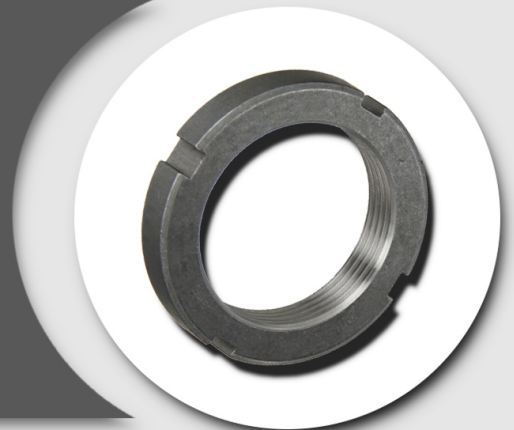

MILD STEEL BUSH

As per shown in picture we are manufacturing precision mild steel bush in different size and along with plating as per customer requirement. We are also manufacturing locking bush.

K M LOCK NUT

With our expertise and trustworthiness, we are engaged in manufacturing and supplying an optimum quality range of K M Lock Nuts. These nuts are widely used in heavy industries to prevent loosening of machine parts under the effect of vibrations or torque

V4 SUBMERSIBLE FLANGE

We are a unique entity in the industry, actively committed towards manufacturing and supplying an optimum quality range of Submersible Flange. This flange is precisely manufactured using high grade raw material and latest technology. Owing to its precise design and accurate dimensions, the provided flange is highly demanded among clients. Further, we offer this flange to our clients at economical rate.

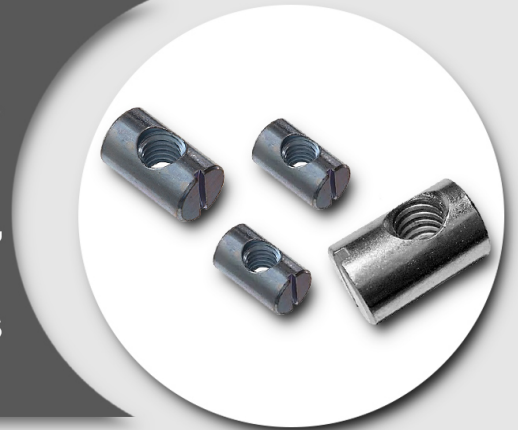

SPECIAL ITEM

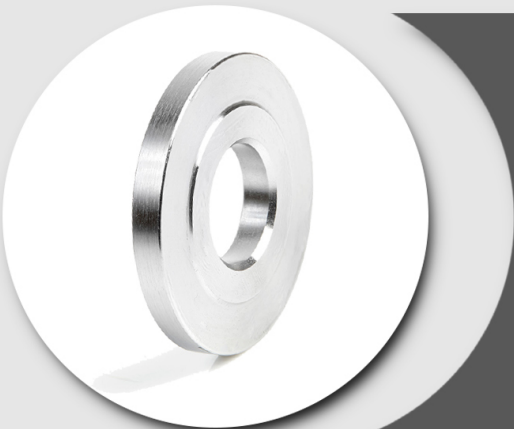

We are providing small quantity Special Item. Our team is always ready for innovate fixture for critical item. And we are also developed SPM machine for this type of special item. Offering you a complete choice of products which include Auto Parts Bracket Fixtures , Drilling And Tapping Fixture, Auto Components Fixture etc.

BARREL NUT

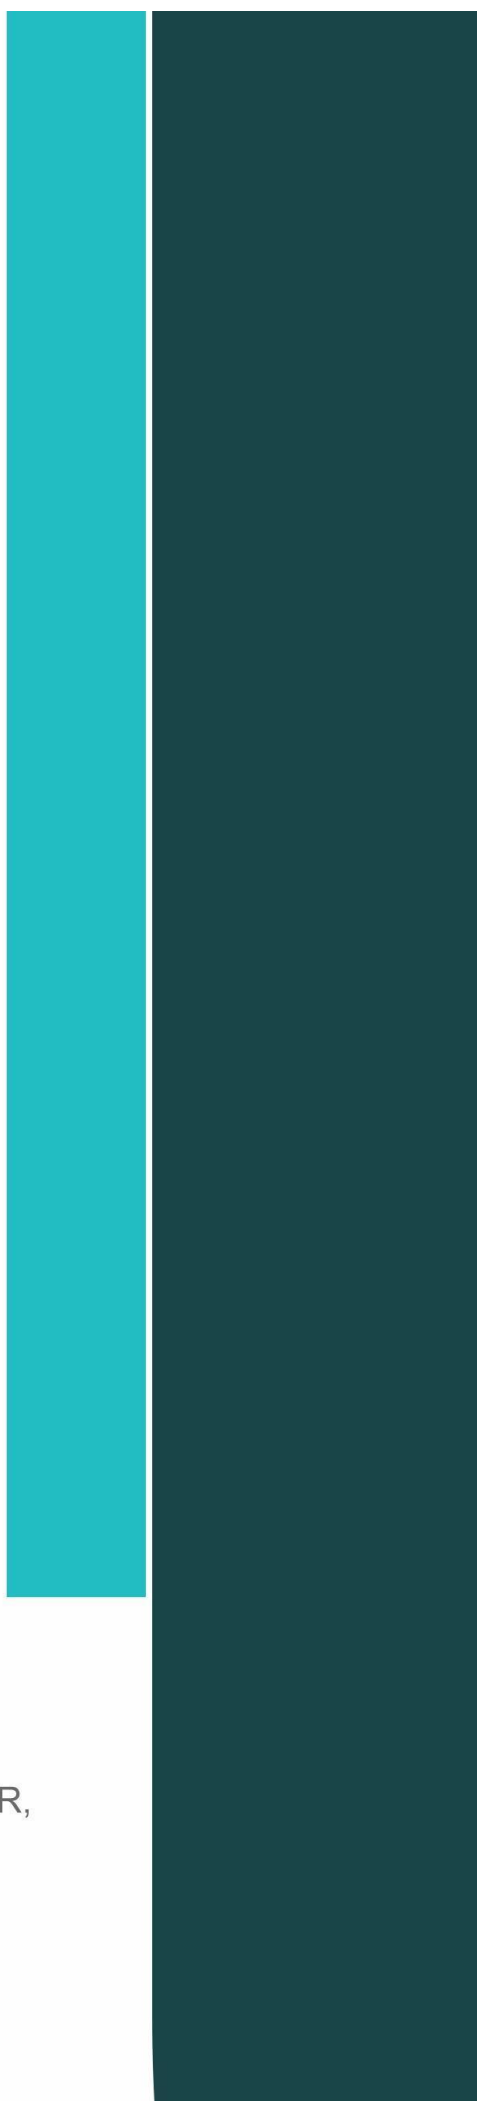

We are a leading manufacturer and supplier of Barrel Nut. We are offering a wide range of Barrel nuts to our valuable clients that are appreciated for their features like high tensile strength, corrosion and rust resistance, durable finishes. These nuts fulfills application in meeting the specific requirements of various industries

MACHINED WASHER

We have gained expertise in manufacturing and supplying high quality Machined Washer. These products are manufactured using excellent quality material that is sourced from well-known vendors of the market. To cater to the diverse requirements of clients, we offer these products in variegated specifications at pocket friendly prices.
